REASONS FOR ALLOWANCE

1. Claims 8-12, 15-17, 21-26 and 29-38 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate nor render obvious to one ordinary skilled in the art a liquid crystal display device comprising a combination of various elements as claimed, more specifically, the insulating film underlying a peripheral portion of the pixel electrode except for a portion of the pixel electrode connected to the connection portion and a central portion of the pixel electrode so that an underside of the central portion of the pixel electrode does not overlap the insulating film, and the central portion of the pixel electrode extends continuously from the connection portion without underlying the insulating film.

Fujikawa ('647) discloses a liquid crystal display device comprising an insulating film underlying a peripheral portion of the pixel electrode except for a portion of the pixel electrode connected to the connection portion. However, Fujikawa fails to disclose the insulating film underlying a peripheral portion of the pixel electrode except for a central portion of the pixel electrode so that an underside of the central portion of the pixel electrode does not overlap the insulating film, and the central portion of the pixel electrode extends continuously from the connection portion without underlying the insulating film.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
